Southern Precision Staffing strives to provide you with a comprehensive employee benefits program as part of your overall compensation package. We put together this guide to help you understand your benefits and to help you get the most out of them. We encourage you to review it thoroughly so you can identify which offerings are best for you and your family. If you have questions about your benefits, reach out to Human Resources or use the contact information included in this guide to get the answers you need.

MEDICAL INSURANCE

You may choose from two medical plans through BCBS of Alabama. When selecting your medical plan consider:

- The premium you'll pay (your payroll deduction)
- What you'll pay when accessing care (copays, deductible, coinsurance)
- What medications are covered
- Which providers are In-Network

SOME INSURANCE TERMS

Copay – a fixed amount you pay when seeking care for certain services.

Deductible – the amount you pay for certain health care services in a calendar year before the plan begins paying any portion of those services.

Coinsurance – the percentage you pay for certain services after meeting your deductible and before you meet your Out of Pocket Maximum.

Out of Pocket Maximum – the most you will pay in a calendar year for covered services. This includes copays, deductibles, coinsurance, and prescriptions. Once the Out of Pocket Maximum has been met, the plan will pay 100% of covered services for the remainder of that calendar year.

Balance Billing – the amount you are billed by out-of-network providers to make up the difference between the amount they charge and what the insurance reimburses. This amount is in addition to and does not count toward your Out of Pocket Maximum.
